Husband & Wife Team, **Bryan & Jennifer Dennis** fished sunken brush piles to beat the Lake Record for Wappapello and take the 1st place win out of a field of 25 boats. They had 2 fish over 4 pounds and their average fish weight was 2.11 pounds. Their weight beat out the previous record (set in 2017) of 28.29 pounds set by Mike Jankowski and Tim Fleming Sr.

Congratulations Bryan & Jennifer!

Lake News

Wappapello is usually one of the hottest tournaments of the year; however, we were fortunate that cooler weather was in store for us this year and made fishing in July not so miserable. Fish catch was very high with 324 fish brought to the scales over the 2 day tournament. The quality of the fish seemed much better than previous years. It took 11.40 pounds to cash a check last year and 7 boats beat that this year and walked away empty handed. Last year's 2nd place weight of 18.85 pounds would have come in 5th this year. Every single boat put fish in the boat. 11 fish over 3.5 pounds were presented to the scales and one behemoth at 5.46.

The fish fry on Saturday Evening was great. Thanks to all those who brought sides and contributed. Nobody left hungry that is for sure! A big thanks to Andy Shands for slaving over the hot grease to cook the catfish. Andy came out of his own pocket to purchase the catfish for the club. Thanks to Millers Motor Lodge for letting us use their meeting/rec room to host the event.

WATER DRAGON™

The 7-inch Water Dragon is designed to impress from head to tail. With its unique form and diverse function, it has many more action features than a standard lizard. First the head is designed with gills and gill filaments for a new look and extra gliding function on Carolina rigs. The body is filled with detail and contour to make a more realistic presentation, reflecting light in many directions and breaking up the image. Features include raised ribs for texposing your hook, a lateral line that can be easily adapted with a marker-

style pen for added color, and a large flat spot on the tail that really pushes water and creates a seductive tail wave.

The rear legs were designed larger than the front for more action - especially in a nose-down posture while Texas-rigged. The heavier rear half of the lure allows the bait to be cast and pitched more accurately and provides additional flotation for Carolina and Texas rigs. This bait literally waves at the fish on a Texas rig - taunting them.

Hawg Hawlers & Family

Jim Trueman invited several of his family members to weigh-in on Sunday. Jim usually fishes with his wife Sue, however, she decided to sit this one out due to the heat and let her son, Mike take her place. Mike weighed in a nice 3.92 pound bass on Sunday.

HAWG HAWLERS BASS CLUB

Sponsors 2018

OPC Marine has been a major sponsor of the Hawg Hawlers for years. Schedule your boat for an Outboard Annual Service which includes checking main engine components, fluid levels, greasing fittings, replacing the water pump, spark plugs, fuel filter, gear lube, pressure test of gear housing seals, and much more. There is simply too much to list!

If you are having trouble starting your boat up for the first time this year give OPC a call to get you back on the water. If you didn't winterize your boat in 2017, don't make the same mistake this year. Check out their 3 different Winterization packages before you put your boat up for the season.

Ellis Battery is another long running sponsor of our club and is the sponsor of this years' Lake of Egypt Tournament. They can outfit your boat or truck with new and fresh batteries for the year. They have all kinds of batteries (lawn mower, laptop, cell phone etc...). Please call Ellis for all your battery needs!

YO-ZURI is a Major Sponsor for the Club this year. They have an awesome selection of hard baits, line and a new spinnerbait called the "knuckle-bait." Various assortment of colors and 3D Prism effects are absolutely amazing. You can find their products at Bass Pro Shops, Cabela's, Academy, Dicks or online at www.yo-zuri.com

G Loomis - With 8 different lines of bass fishing rods (NRX, GLX, E6X, GL2, Classic, Bronzeback Series, Fiber-Blend) you should have no problem finding the perfect rod for whatever type of technique you prefer. If you've never fished with a G Loomis rod before, you don't know what you are missing. These are some of the most sensitive rods out there and built for serious bass fishermen.

Shimano is by far one of the world's most premier fishing tackle companies and highly respected by bass fishermen everywhere. Given the Curado's great reputation as the gold buy standard of affordability priced bulletproof baitcasters, it's likely there are more of these reels in bass boat rod-lockers than any other make. It's hard to believe that even in the spinning reel world, Shimano hit another home run with their Stradic Ci4 (check the online reviews if you don't believe me). I recently picked up one of their Crucial rods a Bass Pro and let me tell you it is one of the lightest rods I've ever handled.
