Mark & Bryce brought 13 fish to the scales in total and reported catching their fish in very deep water near bluff walls with Jigs.

Congratulations Mark & Bryce!

Lake News

Bull Shoals was over 20' high due to the massive amount of flooding and rain that we have had this year. You were able to fish flooded campgrounds, playgrounds, picnic tables and get your boat back way back into some narrow creeks that are normally on dry land. The topwater bite was very good the few days before the tournament when there were overcast skies and rain most of the time. Like always, the conditions changed once the tournament started and left us with high skies for both days. The temperature was fairly cool and allowed for some enjoyable fishing. The topwater bite really slowed down and it seemed the best pattern for finding fish was getting your boat next to some steeper bluff walls and fishing soft plastics or jigs in 15+ foot of water.
