**Dave Sona & Matt Gharst win August Pomme!** They beat out 27 other boats to take the win. They reported catching their fish on fork-tails. **First Place Payout was \$288**

## Lake News

**Amazing Weather** - August tournaments usually mean hot and humid weather with water temps in the 90's. Mother nature threw the club a bone and gave us one of the nicest and comfortable weekends to be on the water. It was a little chilly in the morning, but quickly warmed up to T-shirt weather in no time. The club caught 160 fish total for both days for a 5.7 fish per boat average. It's important to note that last year in August at Mark Twain 27 boats weighed in 74 fish and in 2015 22 boats weighed in 61 fish.

Thanks to **Nemo Resort** for hosting the club once again and for catering the dinner on Saturday evening. The pulled pork and chicken were excellent and the cheesy potatoes were a huge hit.

The biggest bass of the year so far was caught by none other than **Tim Dring**. It weighed 6.32 pounds and was caught on a 6XD crankbait.

## BIG BASS

### Saturday

**New Big Bass of the Year** caught by Tim Dring on Saturday weighing 6.32 pounds. Tim caught the fish on a 6XD crankbait early in the morning and reportedly caught no other keepers off that bait for the rest of the day.

### Sunday

**Jerry Husak** caught the big bass on Sunday weighing 3.34 pounds. The fish earned him \$81.00 in winnings.

## Next Tournament - continued

**Normal Pool** at Truman Lake is 706'. As you can see from the chart below, the lake is above normal pool and has been falling for several days. Look online at the current water levels and trends before each tournament so you know what is going on with the lake before you get on the water.

### Last Fishing Report 9/7/17 - Osage Bluff Marina

**BASS:** With the amount of water going through the dam last weekend the bass fishing was a little tough. It pulled the water back out of the grass and the fish along with it. Secondary points back in the creeks are the best when fished with a jig and frog in 4' to 6' of water. There are some bass starting to suspend on the edges of the creek channels in 15' of water. Top water works early in the morning with a medium running crank bait during the day. Look for the creeks with the wind blowing in. This week I am seeing lots of shad activity about 1/2 way back in the creeks. With the cool evenings and the water temp dropping the bass fishing should be picking up .

### Last Fishing Report 9/7/17 - Sterett Creek Marina

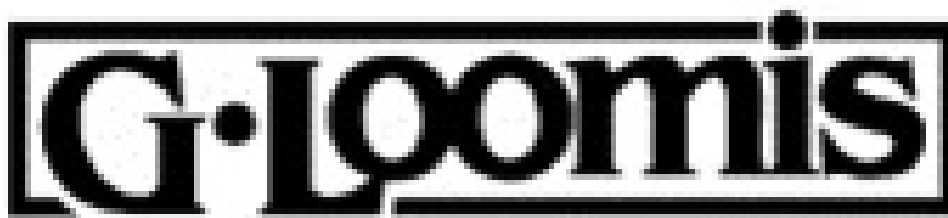

Current water level is 708.56 and falling surface water temp is 75 degrees.

Fishing has been pretty good this week with crappie, cats, and whites and hybrids all on the bite.

The cooler water has the large mouth moving shallow to the secondary points as they stage to move back in the creeks for the fall feed up. Pop r's and black buzz baits are producing all day long. Most fish are small but a lot of action.
